DEALERS IN CATNIP OIL

Pure oil of catnip is rather rare on the market. The list of dealers given below is prepared for the use of those desiring to use this oil as a lure in trapping bobcats and mountain lions, but implies no indorsement by the Department of the dealers listed or of the quality of their products. Other dealers will be listed as the information is brought to the Department's attention.

Mr. G. C. Batey, Fennville, Mich.

Fritzsche Bros. (Inc.), 82-84 Beekman Street, New York, N. Y.

The catnip oil used by the Bureau of Biological Survey was obtained by distillation from catnip plants cultivated on the bureau's Experimental Fur Farm at Saratoga Springs, N. Y. The bureau's supply is limited and sufficient only for official experimental needs.
